

AGILE PROCESS TRANSFORMATION

Unleash the power of processes

6 ADVANTAGES OF PROCESS OPTIMISATION AND AUTOMATION

Cost reduction

Increase in productivity

Gains in new capacity

Increase of quality

Improvement of data security and compliance

Fast implementation, fast return on investment

5 IMPORTANT FACTORS TO CONSIDER

Internal resources

Various application options

Automation strategy

Internal IT

Unexpected changes

MAN TO MACHINE

Capture

Automatic data capture from the most common file formats.

Integrate

Integrations accelerate the flow of information and enable faster business decisions.

MACHINE TO MACHINE

Analysis

Interactive visual analysis.

Open source

No. 1 open-source ETL tool.

ROBOT PROCESS AUTOMATION

Error-free documents

Comprehensive documentation of all steps.

Fastest workflow

Automation within weeks.

UNIQUE SELLING PROPOSITION (USP)

Maintenance and operation

- Maintenance and operation by a German company
- Customer-specific maintenance contracts
- Cloud & full service

Technical

- Text recognition OCR/host integration
- Integration with Microsoft Office (Outlook), SAP, various CRM systems and much more
- Social/cloud/mobile integration
- RPA expertise

BUSINESS CASE

OLD

Processes	Type	Experts	Price	Total (per period)
Human resources process	Workflow	5	€75,000	€375,000
Procurement	RPA	3	€85,500	€255,000
Data management	ETA	2	€80,000	€160,000
Total				€790,000

Manage

Make informed decisions while minimising process delays and automating workflows.

Workflows

Processes that take place between several individuals using software.

Analyse

Ready-to-use analysis via interactive report dashboards.

Store

Consolidate all data and information into a single location.

Scalability

Large amounts of data can be processed quickly.

Identification of potential

Recognition of growth areas.

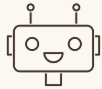

Flexibility

Modular design and open structures.

Automation

Automation and simplification gains of up to 90%.

Your virtual employee

Resource savings through digital workflow.

Integrity

Not a physical robot.

Simplicity

Operates your existing applications.

Continuity

No changes to existing applications required.

Processes

- Manual and graphical process modelling, template-based if desired
- Vertical & horizontal process controllability
- Optimisation of workflows

Operative

- Change management
- Certified BPM & RPA employees
- Role-based

NEW

Number (days)	Service provision (50 days)	Software license fees	Operation & maintenance (per period)	Total
10 à 5	One time €80,000	One time €150,000	€50,000	€280,000
10 à 5	One time €80,000	One time €80,000	€50,000	€210,000
10 à 5	One time €80,000	Community edition €0	€50,000	€130,000
				€620,000

BreakEven
3,6 years

ROI
4 years

FUTURE PROSPECTS

- **Leader** in the Gartner Magic Quadrant 2018
- **Easy creation** of digital personnel files
- **Compliant with data protection laws**
- Fulfils the **information obligation** vis-à-vis the customer
- In conformity with the **compliance requirements** of the company
- Our partner Hyland is a leader in the field of **content management systems**

LABOUR COST REDUCTION

- **Savings:** 69%
- **Invoice processing volume:** +232%
- **Payment speed:** +70%
- **Automatic update** of mainframe: +70%
- **Exception handling:** +85%
- Number of **newly hired employees** with a simultaneous increase in the number of invoices: 0
- **Reduction** of office supplies: -73%
- **Maximisation** of individual **cash discounts!**
